

Accessible Wales Walkthrough Access Reviews

Our Walkthrough Access Review service is an informal review of the current access to a building/service. The client is invited to attend the review as our team go on a journey through the building reviewing access for a wide range of disabled people.

Typically the review will cover

- ✓ Parking and external approach to the building.
- ✓ Circulation around the building both internally and externally.
- ✓ Review of public facing internal spaces.

Our **Walkthrough Access Reviews** look at the access requirements for people with varying disabilities and **not** just wheelchair users... **access is more than just ramps and steps.**

Clients receive a summary report highlighting access improvements. This report will work as a benchmark assessment of current access provision and as a planning tool for future access improvements.

Get in touch for more information **01685 810432** or email info@accessible.wales

All our access services can be tailored to suit the needs of our clients.
