

Accessible Wales Access Consultancy Service

Detailed Access Audit:

This process involves an Accessible Wales team carrying out an audit of the client's premises. Upon completion clients will receive a detailed audit report. This report is supported by measurements and photographs. Clients will also receive a detailed table of recommendations and **access to our highly trained team.**

Walkthrough Access Review:

This service is an informal review of the accessibility of a premises. We discuss all our findings with our clients and suggest possible changes. Once completed clients receive a checklist of areas for improvement. Clients will have **access to our highly trained team.**

Access barriers do not just apply to wheelchair users. People with many health conditions can experience access difficulties. **Our services cover access issues for people with visible and invisible disabilities and are underpinned by current building regulations and equality legislation.**

Access improvements are not as scary, or as expensive as you think!

Accessible Wales also offers a training consultancy service

Accessible Wales Town Centre Accessibility Review

Do you own a business based in a town centre?

If you do, could you be losing customers by not being accessible for disabled people... or being aware of potential customer service problems?

Accessible Wales, a disability consultancy company, can help. We can work with businesses in the town centre, or town centre BIDs and Chamber of Commerce with a free one hour forum to discuss any concerns they may have regarding town centre access and also chat about their own accessibility.

It is often a misconception that access improvements are expensive. We've worked with town centre businesses in the past who have made small cost effective changes which have had a big impact on improving access.

This forum will hopefully act as a vehicle to improve access and awareness within the town centre. Anyone attending will have a 25% discount on any of our services in order to **improve accessibility and raise awareness.**

If you are interested in taking part please email rjones@accessible.wales

Not all disabilities are visible, only 8% of disabled people use a wheelchair

Accessible Wales Walkthrough Access Reviews

Our Walkthrough Access Review service is an informal review of the current access to a building/service. The client is invited to attend the review as our team go on a journey through the building reviewing access for a wide range of disabled people.

Typically the review will cover

- ✓ Parking and external approach to the building.
- ✓ Circulation around the building both internally and externally.
- ✓ Review of public facing internal spaces.

Our **Walkthrough Access Reviews** look at the access requirements for people with varying disabilities and **not** just wheelchair users... **access is more than just ramps and steps.**

Clients receive a summary report highlighting access improvements. This report will work as a benchmark assessment of current access provision and as a planning tool for future access improvements.

Get in touch for more information **01685 810432** or email info@accessible.wales

All our access services can be tailored to suit the needs of our clients.

Accessible Wales Detailed Access Audits

This service provides clients with a full access audit on their premises. This will involve an auditing team spending time analysing the access in and around the building including printed material, steps, lights. Photographs and measurements will be taken for the purpose of writing the report. A video may also be recorded on larger premises for accuracy when compiling the report.

Only **8% of disabled people use a wheelchair**.
Our access audits cover access for people with various disabilities and health conditions including:

- ✓ Partial or full Sensory loss
- ✓ People who are neurodiverse
- ✓ People with learning difficulties

We can cover specific areas where clients may have concerns.

All our audits are written from the viewpoint of a disabled customer/service user.

**Access
is a right
not a
privilege**

All our access audits are underpinned by appropriate legislation, current building regulations and best practice.

Accessible Wales Political Office Access Review

Are you an MP or MS?

We can help you!

We have a proven track record in offering access consultancy to politicians for their offices.

Only 8% of disabled people use a wheelchair!

When thinking about access, people often think of ramps and steps: in actual fact it's far more.

Let us help you become more accessible and more aware of what impacts your disabled constituents.

Call **01685 810432** or email info@accessible.wales for more information - testimonials can be provided upon request.

We also offer various training courses both virtually and face-to-face, visit our website for more information:
